Spectator horse Camping information

Previously, we have had spectator horse camping & dog boarding available at Inavale Horse farms during our clinic. This has given spectators who do not live close enough to go home each night, the opportunity to bring their horse along and practice in the evenings some of what they are watching & learning during the clinic. Unfortunately for us, Inavale has a big event at their farm this year the same dates as our clinic. Therefore, they are not able to accommodate extra horses and campers. They do still have plenty of room for dog boarding should you be needing that.

Their site is: <http://inavalefarmboardingandgrooming.com/>

*We have been checking with other locations for horse camping, and hope to confirm some options soon. Please check back on our website under motel/camping info for updated information should this sort of thing be of interest to you.
